

Leway Chen, MD, MPH, FACC
University of Rochester Medical Center
601 Elmwood Avenue – Box 679T
Rochester, New York 14642

Dr. Leway Chen is the Director of the Program in Heart Failure and Transplantation and Assistant Professor of Medicine/Cardiology. Dr. Chen received his medical degree from the University of Missouri (Kansas City) and his master's degree in Public Health from the University of Washington. He completed his post-graduate work at the Beth Israel Hospital and Framingham Heart Study. Dr. Chen completed fellowships at the University of Washington (cardiology, heart failure, transplant management), and Seattle VA Puget Sound Health Care System. He came to the University of Rochester Medical Center in 1999 and started the Heart Failure/Transplant Program in 2000. Dr. Chen's current research interests are in cardiovascular health services and outcomes measurements.
